
FCA-1000

Mobile Imaging Table
An Affordable, Elegant Imaging Solution

The **FCA-1000** Mobile Imaging Table offers the ultimate in positioning flexibility, stability and versatility. The **FCA-1000** tables are designed for extreme stability and longevity, complimented with the maximum radiolucency from a table top that reduces radiation exposure for patients and extends the life of x-ray tubes.

The FCA-1000 Mobile Imaging Table is an economical yet strong and durable table designed to be used with a C-arm for fluoroscopic imaging procedures, pain care imaging studies or with U-arm X-ray units. This table is **32 ½" high (82 cm)** from floor to fiber resin table top. This table is also at custom heights at an added cost and leadtime. The **24" width (61 cm)** and **extra long 78" length (198 cm)** accommodates greater imaging area. This table is rated at 650 lb. (294 Kg) weight capacity. The metal frame is powder coated in a texture gray color and comes standard with 5" locking casters and a 1" thick black mattress. Options include patient side guard rails, 2" mattress pad and IV pole.

*The **FCA-1000** sets the standard today for elegant, affordable Mobile Imaging Tables.*
