
SC-500

Mobile Imaging Table *A Basic, Economical Imaging Solution*

The **SC-500** Mobile Imaging Table offers the ultimate in positioning flexibility, stability and versatility. The **SC-500** tables are designed for extreme stability and longevity, complimented with the maximum radiolucency from a table top that reduces radiation exposure for patients and extends the life of x-ray tubes.

The **SC-500** Mobile Imaging Table is an economical yet strong and durable table designed to be used with a C-arm for fluoroscopic imaging procedures, pain care imaging studies or with U-arm X-ray units. This table is **32 ½" high (82 cm)** from floor to fiber resin table top. This table is also available at custom heights at an added cost and leadtime. The **24" width (61 cm)** and **extra long 78" length (198 cm)** accommodates greater imaging area. This table is rated at 450 lb. (203 Kg) weight capacity. The metal frame is powder coat painted in a texture gray color and comes standard with 5" locking casters and 1" mattress pad. Options include patient side guard rails, 2" mattress pad and IV pole.

*The **SC-500** sets the standard today for cost-effective Mobile Imaging Tables.*
